

# Ordering and Comparing Big Numbers

1

Look at these numbers. Write  $<$  or  $>$  in each box.

217 563   271 236

575 896   758 962

924 567   924 537

223 237   224 237

2 marks

2

The table below shows the number of golf balls a company sold over five years.

	Number of Golf Balls Sold
Year 1	921 455
Year 2	487 217
Year 3	397 181
Year 4	489 006
Year 5	921 269

Which year were the most golf balls sold?

1 mark

Which year were the fewest golf balls sold?

1 mark

Write  $<$  or  $>$  in the box to complete this sentence:

The number of golf balls sold in Year 2 was   the number sold in Year 4.

1 mark

3

Put these numbers in ascending order.

217 569

216 452

318 569

21 989

Write the numbers in the boxes.

smallest

largest

1 mark

"I can compare numbers up to a million and put them in order of size."
